WAYNE THORNTON IN A NUTSHELL

I was brought up with the work ethic that says if you're going to do the job, do it right the first time and give it everything you have. That is what I bring to the table. I also bring organization, discipline, and determination developed over 30 years of military service.

Whether it's graphic design, handiwork (i.e wood working, vehicle maintenance, etc), or numerous other tasks, I strive to do the best job I can and do it right so nobody has to come back and redo it or fix what I've done. My father taught me through his example, to always give an honest day's work for an honest day's pay. This along with the qualifications listed in this resume, explains why I believe I would be a great asset to have in your employ.

• Key Proficiencies •
